Summary

Passionate Software engineer with 3+ years of experience working on a variety of systems in highly regulated industries. My passion is education and the free sharing of knowledge and I am eager to apply that passion to my career. I love to teach and broaden my knowledge and want to provide opportunities for everyone to do the same.

Skills

Web Development	React, Angular, NodeJS, gulp, HTML, CSS/Sass
Programming Languages	PowerShell, TypeScript, Javascript, C#, Java, PL/SQL, MSSQL
Technical Skills	git, perforce, Test driven development, Process automation

Experience

Fidelity Investments

Merrimack, NH - Remote

SOFTWARE ENGINEER

2017.9.11 - Present

- Develop solutions on and administer the enterprise SharePoint and Power Platform SaaS offerings
- Facilitate monthly tech forums for off-shore and on-shore teams to connect on technical concepts
- Host daily office hours to troubleshoot users' issues and advise on best practices for SharePoint use and development
- Refined my skills in Angular, Agile, Transact SQL, and Java Spring as a LEAP candidate
- Mentored and provided technical guidance for interns
- Served as my scrum team's interim scrum master for 1 year while still performing daily development tasks
- Created self service solutions with React and Microsoft's SPFx framework
- Implemented a more secure credential protocol for automated PowerShell scripts
- Automated multiple processes to ensure SEC Rule 17a-4(f) compliance
